DETAILED ACTION

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on March 20, 2006 has been entered.

Response to Amendment

Claims 17, 19-26, 30-33, 53-58, 65, 66 and 96-120 are pending in the application.

-The 112 2nd rejection of claims 17, 19-21, 23-26, 30, 32 and 33 has been withdrawn due to applicant deleting a broad indefinite limitation from claim 17.

Allowable Subject Matter

Claims 17, 19-26, 30-33, 53-58, 65, 66 and 96-120 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art of record does not disclose or render obvious a motivation to provide for:

-(as to claims 17 and 53) a method for varying a transmission ratio at an output shaft using a first motor and a second motor wherein the shaft speed increases with the speed of the second motor and varying the speed of the second motor so that the first motor performs in a desired range less than 1000 rpm with a power output increased 50% of a peak power output and in combination with all the remaining limitations of claims 17 and 53.

-(as to claims 31, 96 and 110) a method for varying a transmission ratio using a first and second motor in a first and second mode of operation wherein the second motor is stopped in the second mode to provide a fixed speed ratio between the first motor and an output shaft and in combination with all the remaining limitations of claim 31.

-(as to claim 66) a method for combining power using a first motor, a second motor and a synchronizer wherein in a second mode both motors and an output shaft are synchronized via the synchronizer and the second motor is stopped to provide a fixed speed ratio between the first motor and output shaft and in combination with all the remaining limitations of claim 66.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
